**For advisors**

- Scholarship recipients at the Master's degree level must have at least one academic paper published, or accepted for publication in an international journal listed in the Scopus database before graduation.
- Scholarship recipients at the Doctoral level must have at least two academic works published or accepted for publication, of which one must be published in an international journal listed in the Web of Science database with an impact factor approved by the Program Administrative Committee. The second work must be published, in at least an international journal listed in the Scopus database, which approved by the Program Administrative Committee.

If a scholarship recipient is unable to comply with the conditions for scholarship receipt, the scholarship recipient must return all funds received to the Faculty or as the Faculty deems appropriate.
